MISSISSIPPI NOXIOUS WEED LIST

A noxious weed is a plant species or classified group of plants declared by the Bureau of Plant Industry to be a public nuisance or to be especially injurious to the environment, to agricultural and horticultural production, or to wildlife and which should be controlled and the dissemination of which prevented. **The sale, distribution or movement of the following plants into and within Mississippi is prohibited.**

Benghal dayflower (*Commelina benghalensis*)*
Brazilian Satintail (*Imperata braziliensis*)*
Chinese Tallow Tree / Popcorn Tree (*Sapium sebiferum*)
Cogongrass (*Imperata cylindrica*) *
Giant Salvinia (*Salvinia molesta*) *
Hydrilla (*Hydrilla verticillata*) *
Itchgrass (*Rottboellia cochinchinensis*) *
Kudzu (*Pueraria montana var. lobata*) *
Torpedograss (*Panicum repens*)
Tropical soda apple (*Solanum viarum*) *

* Also listed on the Federal Noxious Weed List.

PROHIBITED AQUATIC PLANTS

Under the Mississippi Aquaculture Act of 1998 the following plants have been determined to be detrimental to the State's native resources and further sales or distributions are prohibited in Mississippi. **No person shall import, sell, possess, transport, release or cause to be released into the waters of the state any of the following aquatic plants.**

Egeria / African Elodea (*Egeria densa*)
Water Hyacinth (*Eichhornia crassipes*)
Rooted Hyacinth (*Eichhornia azurea*)*
Eurasian Watermilfoil (*Myriophyllum spicatum*)
Water Lettuce (*Pistia stratiotes*)
Paperbark / Melaleuca (*Melaleuca quinquenervia*)*

* Also listed on the Federal Noxious Weed List.

CERTIFIED NURSERIES

Nurseries listed in this publication have been inspected and certified to sell nursery stock in the state of Mississippi from July 1, 2020 to June 30, 2022. A certificate signifies the nursery has met all requirements of the Mississippi Plant Act and the stock is apparently free of injurious pests and plant diseases. Issuance of a certificate is based upon periodic inspection of nursery stock by an official with the Bureau of Plant Industry.

Nursery certificates should accompany each shipment of nursery stock to other states and should be issued for nursery stock to be resold. Special requirements must be met to ship to California, Arizona, Washington and other states north and west of Mississippi where imported fire ants are not known to occur. Individual nurseries sending plant materials to these states should contact the Bureau before shipping. Nursery producers who have questions about nursery inspections and certification can contact the Bureau at 662-325-3390.

Explanation of Categories Listed for Certified Nurseries

CLASSIFICATION

1. Commercial Grower: Nursery operation in which more than 50 percent of the nursery stock sold or distributed is grown by that nursery and may include such plant material as rooted liners or seedlings.
2. Nursery Outlet: Nursery operation in which less than 50 percent of the nursery stock sold is grown by that nursery. Example: garden centers where most of the nursery stock on hand has been procured from other nurseries as ready-for-sale plants.
3. Non-Commercial Grower: Same as a commercial grower, but the individual or partnership that operates the nursery does not depend completely on the sale of nursery stock as a source of income. Example: individual working full-time elsewhere to supplement income from the nursery or a “back-yard” type grower who handles a low volume of nursery stock and makes infrequent sales.

SALE STRUCTURE

- A. Wholesale: All sales of nursery stock are made to other nurseries, person and firms that re-sell nursery stock.
- B. Retail: All sales of nursery stock are made directly to the consumer, with no further marketing of the stock.
- C. Combination: All sales of nursery stock are made to both wholesalers and consumers.
